The indicated allowability of claim 1 is withdrawn in view of the newly discovered reference(s) to Schaeffer. Rejections based on the newly cited reference(s) follow.

Claims 4 and 5 are allowed.

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Schaeffer.

Schaeffer discloses a device comprising: a bag-like structure a compressible area (target) (6) partially mounted in bag like area (8) and a whistle (26) having means (2) for sounding.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Note the overall device of Summers.

Note the whistle (11) of Pritchard.
